More Than 100 Exhibitors Featured at the Sir Speedy and PIP Printing & Document Services International Convention and Vendor Show

MISSION VIEJO, Calif., May 27, 2005—More than 100 companies will be exhibiting at the 28th Annual Sir Speedy and PIP International Convention and Vendor Show at the Tampa Convention Center in Tampa, Florida, July 13-17. Leading companies in the printing, document solutions and graphic arts supply industries come to this annual convention to exhibit their products to the world's largest franchise organization in the quick printing industry.

“Our goal is to keep our franchisees apprised of the latest products, services and software tools that fit with our new business model. The Vendor Show gives our vendors the opportunity to meet our franchisees and showcase those products and services in one comprehensive venue,” said Leasa Eddy, vendor relations manager for Franchise Services. “Our franchisees look forward to seeing all of the vendors under one roof, and appreciate the opportunity to learn about new technology over just a few days that otherwise could take several weeks or longer to research on their own.”

The Sir Speedy and PIP International Vendor Show is the largest of any quick printing franchise company. This year the show will feature two workflow pavilions featuring mailing services and large format where several vendors will be co-exhibiting complete solutions. Companies exhibiting at this years vendor show include, Heidelberg, Xerox, Canon, Konica Minolta, 3M, Hewlett Packard, EFI, Adobe and Quark.

Along with the vendor show, the convention features over 30 seminars and presentations and an awards banquet to honor the top franchise centers in the Sir Speedy and PIP networks.
